

Top 10 reasons to get GPS tracking

SAVE FUEL

Eliminate unnecessary miles driven by optimising service routes.

REDUCE SPEEDING

Speeding increases fuel consumption and risk. Eliminate unsafe driving and prolong your fleet's vehicle health.

REDUCE IDLING

Idling wastes fuel. Monitor idling and reduce excessive idling by your drivers.

IMPROVE MAINTENANCE

Increase your gas mileage. Your vehicles deliver their best mileage when they operate in peak condition.

GET ALERTED

Know what's happening as it happens. Fleet Tracker supports a variety of pre-set activity alerts, and archives driver activity for 1 year.

WATCH YOUR ENTIRE FLEET

Seeing is believing. Monitor driver behavior and control how they use your fleet.

PREVENT UNAUTHORISED USE

Tracking helps to eliminate this problem at the source. Save money and eliminate false accusations.

DECREASE YOUR LABOUR COSTS

Time is money. Get accurate records of driver hours and eliminate manual time-sheets.

IMPROVE YOUR PRODUCTIVITY

Optimise routing. Dispatchers can recommend the best routes to avoid traffic on the way to the next job.

ENHANCE CUSTOMER SERVICE

Fleet visibility makes servicing customers easier. Know who to send, where they are, and when they will arrive.
